

## Limited OB Ultrasound Training

### Acquiring Competence

Hands-on training can be scheduled at your Clinic, after attending the NIFLA course.

Number of days varies as Program is customized for each Clinic.

- Maximum of 10 days for 3 nurses/medical professionals with no local RDMS assistance.
- Trainings will be customized depending on skill sets of nurses. Seven days may be an option.
- Minimum 2 days for skills assessment after local RDMS partner training.
- Cost: \$600 per day plus expenses (air fare, car, hotel, meals)

For more information or to schedule a training, please contact us.

### Skills Assessment

Utilizing Local RDMS

1. The RDMS should either attend NIFLA's Institute in Limited Obstetrical Ultrasound or participate in the 3-hour webinar. Now available ON DEMAND, the Webcast consists of two videos outlining the legal and national guidelines for providing limited obstetrical sonography exams in your PMC.

- RDMS obtains up to three CMEs
- Go to [nifla.org](http://nifla.org), select RDMS Webinar

2. Bring a Soundview Imaging RDMS onsite to perform a competency assessment on their nurse sonographers who have receive the hands-on training by the local RDMS.

3. The initial skills assessment by Soundview Imaging Partners. This is a two day process comprised of scanning to demonstrate competency, case review/film critique, a written test, and addressing needs specific to your Clinic. (cost \$1400 plus expenses)

### Skills Advancement

Medical Professionals will advance their knowledge and skills for continuous quality improvement in PMC sonography. The Skills Advancement and Assessment can be customized to serve you with two or more days for a comprehensive review of limited OB sonography utilizing best practice guidelines, chart/case reviews, with hands on skills review, assessment documentation of competency.

- Provider approved by the California Board of Registered Nurses for 3 CEUs per day.
- Cost: \$1400 plus expenses

Hands-on training customized to suit the needs of your medical professionals in acquiring competence.

Advancing and refreshing skills for continuous quality improvement.

Skills assessment utilizing local RDMS.
