

# NIFLA STATEMENT REGARDING CORONAVIRUS

The ***National Institute of Family and Life Advocates*** is confident that the current health crisis regarding the outbreak of the coronavirus is temporary and that our nation will overcome the challenges it has brought. Our national history is full of examples of how Americans have successfully faced serious adversity. This crisis will also be met and conquered.

**NIFLA** intends to do our part to protect our member centers, their staff, their families, and their patients/clients from health concerns brought on by this outbreak. Our mission is to equip pro-life pregnancy centers in order to empower a choice for life. During these challenging times, **NIFLA** is here for its members. We are here to support you and respond to questions and concerns as they relate to your operations. Facing COVID-19 is no different.

**NIFLA** is available by phone or email. Although our coverage may be altered due to guidelines set forth in our nation, or more specifically, in our state, we are covering the calls and emails and will respond promptly to your questions. Please visit the [CDC's website](#) for the most up to date information and national guidelines related to the coronavirus.

We urge everybody to review the attached **NIFLA [Legal/Clinic Tips](#)** dated March 16, 2020 and immediately implement the recommended policies contained therein. Furthermore, we advise all members to review the March 19 *Tips in Review* Webinar recording when it is available on the [website](#) after the live event.

**NIFLA** will monitor the situation daily. We will adjust the dates of upcoming training events as dictated by the latest news. We do not intend to cancel any training scheduled for the future. Such trainings are vital to the growth and effectiveness of our network of more than 1,500 pro-life pregnancy centers and medical clinics. We will notify our members and attendees of any adjustments to **NIFLA's** scheduled events.

Finally, we urge everybody to place their trust in our sovereign God who alone has the future in his hands. He is our protector and provider. He has called this network to an incredible mission of saving lives and building a culture of life in our nation. We must never be deterred from this work.

Sincerely in Christ,

Thomas A. Glessner, J.D.

**NIFLA** President and Founder
