

PULSE

Providing Ultrasound with Local Sonographer as Educator

Pulse is a comprehensive training program for RDMSs to attain the qualifications set by national standards to provide hands-on practice sonography scans for Registered Nurses in Pregnancy Medical Clinic settings.

HOW DOES IT WORK?

Pulse is a two-step process.

Step 1

RDMS views the two Pay-Per-View training modules from NIFLA's *"Institute in Limited OB Ultrasound"*

- Modules may be found at www.nifla.org/RDMS
- Cost: \$249
- CME's are provided through the SDMS.

Webinar Instructors:

Tom Glessner JD, NIFLA

Anne O'Connor JD, NIFLA

Audrey Stout, RN, RDMS

Dotsy Davis, BSRT, RDMS, RVT

"NIFLA is proud to partner with Soundview Imaging in offering this new training for RDMS's."
Thomas Glessner, JD
President/CEO,
NIFLA

Step 2 -

After nurses complete their 50-75 practice scans under the supervision of the RDMS, Soundview Imaging Partners provides an on-site skills assessment to assure proper competency skills are attained according to national standards.

- Cost: \$1200 *plus travel

Go to Soundview Imaging for more information:

www.soundviewimaging.com

**Nurses must attend a NIFLA course in Limited OB Ultrasound prior to hands-on training.*
